1. Overview

What is GrantFind?

GrantFind is an easy-to-use platform that helps you discover, apply for, and manage grant opportunities for your business. Whether you are a startup founder, small business owner, or nonprofit leader, GrantFind connects you with funding opportunities that match your needs.

Key Features

- Grant Vault - Browse a curated collection of verified grant opportunities
- AI Grant Finder - Answer questions and get personalized grant recommendations
- Application Reviewer - Get AI-powered feedback on your applications
- Proposal Writer - Step-by-step AI assistance for grant proposals
- Business Dashboard - Track all your applications and deadlines

How GrantFind Helps You

Challenge	How GrantFind Helps
Don't know which grants I qualify for	AI Grant Finder matches you with relevant opportunities
Writing proposals takes too long	Proposal Writer guides you section by section
Not sure if application is strong enough	Application Reviewer scores and improves drafts
Lose track of deadlines	Dashboard tracks applications and due dates

2. Who This App Is For

Small Business Owners

If you run a small business and are looking for non-dilutive funding, GrantFind can help you find grants specifically for your industry and business type.

Startup Founders

Early-stage companies often need capital to grow. GrantFind helps you discover grants for innovation, technology, and new ventures.

Women-Owned Businesses

Many grants specifically support women entrepreneurs. GrantFind includes a dedicated category of grants for women-owned businesses.

Minority-Owned Businesses

GrantFind features grants designed to support minority entrepreneurs and underrepresented founders.

Veteran-Owned Businesses

Veterans transitioning to entrepreneurship can find specialized grants and funding programs through GrantFind.

Nonprofit Organizations

Organizations with a social mission can discover foundation grants and government funding opportunities.

3. What You Need Before Using GrantFind

Required Information

Item	Why You Need It
Business Name	To set up your profile and track applications
Business Type	Helps match you with relevant grants
Industry/Sector	Many grants are industry-specific
Year Founded	Some grants have age requirements
Location	State/city for geographic-specific grants
Email Address	For account creation and notifications

Helpful to Have Ready

- Business Description - A 2-3 sentence summary of what your business does
- Revenue Information - Annual revenue (even if \$0 for startups)
- Employee Count - Number of team members
- Business Certifications - Woman-owned, minority-owned, veteran-owned, etc.

4. How to Log In / Sign Up

Creating a New Account

1. Go to <https://grantfind.io>
2. Click the Sign Up button in the top right corner
3. Enter your Full Name, Email Address, and Password (at least 8 characters)
4. Click Create Account
5. Check your email for a confirmation message
6. Click the confirmation link to verify your account

Logging In

1. Go to <https://grantfind.io/signin>
2. Enter your email address and password
3. Click Log In

Forgot Your Password?

1. On the login page, click Forgot Password
2. Enter your email address
3. Click Send Reset Link and check your email

5. Setting Up Your Profile

Step 1: Add Your First Business

1. After logging in, you'll see the Add Business prompt
2. Click Add Business or the + button
3. Fill in: Business Name, Industry, Business Type, Year Founded, Location, Description
4. Click Save Business

Step 2: Add Business Certifications (Optional)

If your business has special certifications, add them to see more relevant grants:

- Woman-Owned Business
- Minority-Owned Business
- Veteran-Owned Business
- Disabled Veteran-Owned

6. How to Search for Grants

GrantFind offers two ways to find grants: browsing the Grants Vault or using the AI Grant Finder.

Method 1: Browse the Grants Vault

1. Click Grants Vault in the navigation menu
2. Browse the list of available grants
3. Each grant card shows: Grant name, Funding organization, Award amount, Deadline

Method 2: Use the AI Grant Finder

See Section 12 for complete AI Grant Finder instructions.

7. How to Filter & Sort Results

- Category - Women-owned, Minority-owned, Veteran-owned, General, Federal
- Award Amount - Minimum and maximum funding amounts
- Deadline - Show only grants with upcoming deadlines
- Sort by: Deadline, Award Amount, Recently Added, Rating

8. How to Open and Read a Grant

Click on any grant card to view: Overview, Award Amount, Eligibility, Deadline, Requirements, How to Apply, and Official Link.

9. How to Save/Bookmark Grants

Click the Save or Bookmark icon on any grant to save it. View saved grants in your Dashboard.

10. How to Track Deadlines

Your Dashboard shows all applications with status: Not Started, In Progress, Submitted, Under Review, Approved, or Rejected.

11. How to Export or Share

Use your browser's print function (Ctrl+P) and select "Save as PDF" to export grant details.

12. AI Grant Finder - Complete Guide

The AI Grant Finder is a powerful 9-question questionnaire that uses artificial intelligence to match you with the 10 most relevant grants from our database of 30+ verified grant programs.

How It Works

You answer 9 questions about your business. The AI analyzes your responses and compares them against our curated database to find grants that match your eligibility criteria, industry, location, and funding needs.

Step-by-Step Instructions

1. Click Grant Finder in the navigation menu
2. Click Start Finding Grants to begin the questionnaire
3. Answer all 9 questions honestly and completely
4. Click Find My Grants after the final question
5. Review your personalized list of 10 matched grants
6. Click any grant to view details and apply

The 9 Questions Explained

Question 1: Business Type

Select what type of business or organization you represent:

- Nonprofit Organization
- Small Business (1-50 employees)
- Medium Business (51-250 employees)
- Large Business (250+ employees)
- Startup
- Social Enterprise
- Educational Institution
- Research Organization

Question 2: Project Goals

Describe your project goals in your own words. Be specific about what you want to accomplish with the grant funding. Examples:

- "Expand our manufacturing capacity to meet growing demand"
- "Launch a job training program for underserved youth"
- "Develop a new technology product for the healthcare industry"

TIP: The more specific you are, the better the AI can match you with relevant grants.

Question 3: Location & Geographic Scope

Enter your business location (city/state) and select your geographic preference:

- Local - Grants specific to your city, county, or region
- State - Grants available in your state
- National - Grants available across the United States
- International - Global grant opportunities

Question 4: Industry

Select the industry that best describes your business:

- Healthcare & Medical
- Technology & Software
- Education & Training
- Agriculture & Food
- Manufacturing
- Clean Energy & Environment
- Arts & Culture
- Community Development
- Social Services
- Scientific Research
- Construction & Real Estate
- Retail & E-commerce
- Transportation & Logistics

Question 5: Funding Need

Select the approximate amount of funding you need:

- Under \$10,000 - Micro-grants, often easier to win
- \$10,000 - \$50,000 - Small grants, moderate competition
- \$50,000 - \$100,000 - Medium grants, competitive
- \$100,000 - \$500,000 - Large grants, highly competitive
- \$500,000 - \$1,000,000 - Major grants, very selective
- Over \$1,000,000 - Enterprise-level grants

TIP: Start with smaller grants if you're new to grant applications. They have simpler requirements and less competition.

Question 6: Ownership Type

Check all that apply to your business ownership:

- Minority-owned - At least 51% owned by minority individuals
- Women-owned - At least 51% owned by women
- Veteran-owned - At least 51% owned by military veterans
- Disabled-owned - At least 51% owned by individuals with disabilities
- None of the above

Many grants specifically target these ownership types, so accurate selection improves your matches.

Question 7: Grant Experience

Have you applied for grants before?

- Yes - The AI may suggest more complex grants with higher awards
- No - The AI will prioritize grants with simpler application processes

First-time applicants receive grants that are easier to apply for and have higher acceptance rates.

Question 8: Grant Type Preference

What type of grants do you prefer?

- Federal Grants - From U.S. government agencies (SBA, USDA, etc.)
- Corporate Grants - From companies like Google, FedEx, Visa
- Foundation Grants - From private foundations (Amber Grant, Halstead, etc.)
- No Preference - Show all matching grants regardless of type

Question 9: Date Confirmation

Confirm today's date. This ensures the AI only shows grants with current or upcoming deadlines, filtering out expired opportunities.

Understanding Your Results

After answering all 9 questions, the AI returns your top 10 matched grants. Each result includes:

- Grant Title - Name of the grant program
- Description - What the grant funds
- Eligibility - Who can apply
- Deadline - When applications are due
- Amount - How much funding is available
- Official Link - Direct link to apply

TIP: Save grants you're interested in to your Dashboard so you don't lose them!

13. Application Reviewer - Complete Guide

The Application Reviewer is an AI-powered tool that analyzes your grant application before you submit it. It scores your application across 7 professional criteria, identifies strengths, and provides specific recommendations for improvement.

How It Works

You provide the grant requirements and your draft application. The AI compares your application against the requirements and professional grant-writing standards, then generates a detailed evaluation with scores and recommendations.

Step-by-Step Instructions

1. Click Application Reviewer in the navigation menu
2. Complete the 5-step review process
3. Review your scores and feedback
4. Make improvements based on recommendations
5. Re-submit for another review if needed

The 5 Review Steps

Step 1: Grant Requirements

Provide the grant requirements in one of two ways:

- Paste the grant requirements text directly into the text box
- Enter the URL of the grant program website

The more complete the requirements, the more accurate the review.

Step 2: Application Upload

Upload your draft application:

- Upload a PDF file - The system will extract the text automatically
- Paste your application text directly into the text box

Both methods work equally well. Use whichever is more convenient.

Step 3: Analysis

The AI analyzes your application. This typically takes 30-60 seconds. During analysis, the AI:

- Compares your application to the grant requirements
- Evaluates grammar, clarity, and professionalism
- Assesses alignment with the funder's goals
- Checks for common grant application mistakes

Step 4: Scoring

View your scores across 7 professional criteria. Each criterion is scored from 1-5:

The 7 Scoring Criteria

Criteria	What It Measures
1. Alignment with Funder Goals	How well your project matches funder priorities
2. Feasibility of the Project	Whether your project can realistically be completed
3. Impact of the Project	The significance of your project's outcomes
4. Innovation	How creative or novel your approach is
5. Organizational Capacity	Your ability to execute the project
6. Budget Feasibility	Whether your budget is realistic and justified
7. Scalability & Sustainability	Long-term viability of your project

Maximum total score: 35 points (7 criteria x 5 points each)

Understanding Your Score

- 30-35 points (86-100%): Excellent - Ready to submit
- 25-29 points (71-85%): Good - Minor improvements needed
- 20-24 points (57-70%): Fair - Several areas need work
- Below 20 points (<57%): Needs significant revision

Step 5: Recommendations

The AI provides detailed feedback including:

Strengths

A list of 3+ things your application does well. These are elements to keep and potentially emphasize more.

Areas for Improvement

A list of 3+ specific recommendations to strengthen your application. Each recommendation explains what to change and why.

Overall Feedback

A detailed written summary of your application's evaluation, including context for the scores and prioritized next steps.

Tips for Using the Application Reviewer

- Review your application BEFORE the deadline - Leave time for revisions
- Address the lowest-scoring criteria first - Focus on the biggest improvements
- Re-review after making changes - Confirm your score improves
- Keep the recommendations - Reference them for future applications

TIP: Many successful grant applicants review their application 2-3 times, making improvements each round.

14. Proposal Writer - Complete Guide

The Proposal Writer is a comprehensive 6-step wizard that guides you through writing a complete grant proposal from scratch. The AI assists with each section, ensuring your proposal meets professional standards and addresses all funder requirements.

How It Works

You provide information about the grant and your project. The AI analyzes the requirements, creates an outline, and helps you draft each section. Finally, it checks compliance and compiles your final proposal.

The 6-Step Process

Step 1: Grant Information

Provide the grant guidelines in one of two ways:

- Enter the URL of the grant program website
 - Upload a PDF of the grant guidelines
 - Paste the grant requirements text directly
- The more detailed the information, the better the AI can tailor your proposal.

Step 2: Grant Analysis

The AI analyzes the grant requirements and identifies:

- Grant Type - Government, foundation, corporate, or other
- Formatting Standards - Page limits, font requirements, etc.
- Key Requirements - What the funder is looking for
- Funding Priorities - What the funder values most
- Deadline - When the application is due
- Word Count Limits - Maximum length for sections

Step 3: Project Information

Provide details about your project by answering three questions:

Project Purpose

Describe what your project aims to accomplish. Example: "Our project will create a job training program that helps 200 unemployed adults in our community gain skills for careers in healthcare."

Target Community

Describe who will benefit from your project. Example: "Adults aged 25-55 in the greater Phoenix area who have been unemployed for 6+ months and have a high school diploma or GED."

Primary Goals

List 2-4 specific, measurable goals. Example: "1) Train 200 participants in certified nursing assistant skills, 2) Achieve 85% job placement rate within 90 days of graduation, 3) Maintain 90% participant completion rate."

Step 4: Write Sections

The AI helps you draft each section of your proposal. You can generate AI drafts and then edit them to match your voice. The 10 proposal sections are:

- Cover Letter - Introduction to your organization and request
- Executive Summary - One-page overview of your entire proposal
- Statement of Need - Why this project is necessary
- Project Description - Objectives, methods, and timeline
- Budget - Detailed breakdown of costs
- Impact Statement - Expected outcomes and significance
- Evaluation Plan - How you'll measure success
- Sustainability Plan - How the project continues after grant ends
- Organizational Background - Your organization's qualifications
- Appendices - Supporting documents and attachments

How to Use Each Section

For each section:

1. Click on the section name to select it
2. Click Generate AI Draft to create initial content
3. Review the AI-generated draft
4. Edit the text to match your voice and add specific details
5. Click Save Section when satisfied
6. Repeat for all 10 sections

TIP: Don't just accept the AI drafts as-is. Add your unique voice, specific data, and organizational details to make the

Step 5: Compliance Check

The AI reviews your complete proposal against the grant requirements to ensure compliance. It checks:

- All required sections are included
- Word/page limits are met
- Key requirements are addressed
- Formatting standards are followed

Results are shown as:

- Compliant (Green) - Section meets all requirements
- Warning (Yellow) - Section may need attention
- Error (Red) - Section has issues that must be fixed

Step 6: Final Review

Review your complete proposal in one document:

1. Read through the compiled proposal
2. Make any final edits
3. Click Download as PDF to save your proposal
4. Click Copy to Clipboard to paste into another document

Proposal Writing Best Practices

- Start Early - Give yourself at least 2-3 weeks before the deadline
- Be Specific - Use concrete numbers, dates, and measurable outcomes
- Tell a Story - Connect emotionally with the funder through narrative
- Show Alignment - Explicitly connect your project to funder priorities
- Proofread Everything - Grammar and spelling errors hurt your credibility
- Get Feedback - Have colleagues review before submitting
- Follow Instructions - Address every requirement, even small ones

TIP: The best proposals are clear, specific, and demonstrate a deep understanding of both the problem and the proposed

15. Best Practices

How to Find Better Grants Faster

- 1. Complete Your Profile Fully - Better matches with more information
- 2. Use the AI Grant Finder First - Let AI narrow to your best 10 matches
- 3. Apply to Grants You Actually Qualify For - Read eligibility carefully
- 4. Start with Smaller Grants - Under \$25K often has less competition
- 5. Apply Early, Not Last Minute - Many review as applications come in
- 6. Use the Proposal Writer Tool - AI guides you through each section
- 7. Use Application Reviewer Before Submitting - Catch weak spots
- 8. Track Everything in Dashboard - Stay organized, never miss deadlines
- 9. Reuse and Adapt - Strong proposals can be adapted for similar grants
- 10. Apply to Multiple Grants - 5-10 applications increases your odds

16. Troubleshooting

Problem	Solution
Can't log in	Check email, use Forgot Password, check Caps Lock, clear
Not receiving emails	Check spam folder, add to contacts, wait 5-10 minutes
Page won't load	Refresh page, try different browser, check internet
Can't find grants for industry	Use AI Grant Finder, check General category
Saved grants disappeared	Check correct account, grants may be archived
Apply button doesn't work	Check pop-up blocker, right-click Open in New Tab
AI tools not responding	Wait 30 seconds and try again
PDF upload fails	Try pasting text directly instead
Grant Finder no results	Answer all questions, try broader answers
Proposal Writer stuck	Refresh page, your progress is saved

17. FAQ

General Questions

Q: Is GrantFind free to use?

A: Basic grant browsing is free. Premium AI tools may require a subscription.

Q: Does GrantFind guarantee I'll win a grant?

A: No. Winning depends on your business, competition, and application quality.

AI Tools Questions

Q: How does AI Grant Finder work?

A: Answer 9 questions, AI matches you with 10 most relevant grants from 30+ verified programs.

Q: How does Application Reviewer work?

A: Paste your application text, AI scores it across 7 criteria (max 35 points) with specific feedback.

Q: How does Proposal Writer work?

A: 6-step wizard guides you through writing all 10 sections of a complete grant proposal.

Q: Are the grants in the database real?

A: Yes. All 30+ grants are verified from legitimate organizations with official application links.

18. Glossary of Grant Terms

Term	Definition
Award Amount	Total funding available through the grant
Deadline	Final date for application submission
Eligibility	Requirements to apply for a grant
Foundation Grant	Funding from private foundations
Federal Grant	Funding from U.S. government agencies
Grant	Money that doesn't need to be paid back
Grant Proposal	Document explaining your project
Letter of Intent	Brief letter before full application
Matching Funds	Your contribution requirement
Non-Dilutive Funding	Money without giving up equity
RFP	Request for Proposal announcement
SBA	Small Business Administration
Woman-Owned Business	51%+ owned by women
Minority-Owned Business	51%+ owned by minorities
Veteran-Owned Business	51%+ owned by veterans
